Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in Item (65), under Prior Publication Data, after inspection of the application, it is revealed that the application is printed in accordance with the record.

There is no supporting documentation reflecting that such data should be inserted into the file. If the attorney/applicant does not possess supportive documentation and a copy of the postcard receipt, then it may be necessary to submit a petition. Therefore, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request in this matter is hereby denied.

Further consideration will be given in *this matter*, upon receipt of a Reconsideration Certificate of Correction, and supporting documentation. See the note below.

A certificate will issue for the remaining errors in your request.

Note: If you obtain data that clearly shows the attorney/applicant is not in error, simply include proving/supporting documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supporting documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request, then, the appropriate fee of \$100.00 with your "Certificate of Correction" or "Reconsideration Certificate of Correction" will be necessary. Without supporting documentation, depending upon the matter in your request, it is possible that in addition, a petition with it's appropriate fee of \$130.00 may be necessary, or the request may be denied; please see the MPEP for further instruction and understanding. This is a general hint which may decrease the processing time of your request.
